

The all-new international fashion trend design, high-end fashion.
Based on international advanced fitness equipment design concept, guide
by biochemical
science movement track.

The main frame: D-shape tube (75*130mm); main pipe: flat oval tube
(50*100mm); motion
arm tube: round tube(60mm); combine D-shape tube with flat oval tube,
sturdy and durable;
co-ordinate ABS cover, security and seamless.

Seat adjustment: parallelogram mechanical structure, stability and
noiseless; match drag air
spring, easily adjust.

Back cushion: one-way "automatic" adjustment method.

Cushion: double stitched sewing, luxury and fashion.

The structure shape of the thigh-support pad minimizes the
pressure of the knees.

The training position can be adjusted in sitting position.

Range of motion (ROM) lever button allows the user to adjust the
starting angle in sitting position.

Adjustable back seat can accommodate users of all sizes.
